

REACH Compliance Statement – Fibercore Limited

Fibercore is fully aware of the legal requirements under **REACH (Registration, Evaluation, Authorisation and Restriction of Chemicals) regulation (EC) 1907/2006 and as Amended on 13th June 2017 (EU) 2017/999**, which originally came into force in 2007 to protect human health and the environment.

Under REACH, Fibercore is not required to pre-register or register substances or articles as defined by REACH because the Company:

1. Does not import or produce such substances above the defined threshold of 1 tonne per year.
2. Has not identified any materials in its substances or products that are included in the ECHA Candidate List, which covers Substances of Very High Concern >0.1% weight for weight, including those added to the list as of January 2018.

Fibercore will work closely with suppliers, customers and relevant stakeholders to communicate new information on use, hazards and risk potential of substances as necessary.

Dr Christopher Emslie
Managing Director
